## Freeliner Policy

The Freeliners column is open to *current* MMPA members who wish to advertise – at no charge – goods or services relating directly to their dairy farm operations.

- An item submitted will be published for no more than two consecutive months. (One month, unless otherwise requested.)

- After that, it will be withdrawn.

- It will be published again for no more than two consecutive months only if the member resubmits the item by contacting their fieldman or by writing or calling the Novi office.

- Reference to a name of a firm or other commercial enterprise with which a member is involved will be deleted, with permission of the member.

- If the member does not wish such deletion, he may choose to have the item published as a Classified Ad at the regular per-line Classified Ad rate.

- Freeliners must be received by the 10th of the month preceding the desired month of publication.

*Example* – to be included in the January issue, the freeliner must be at the MMPA office by December 10th.

# Udder Singe

### DAIRYMEN:

Udder health is the key! Using the **UDDER SINGE** for low heat flaming is a quick and easy way to eliminate long udder hair. Keeps dirt and manure off udders and teat ends. Lower SCC

& bacteria counts. Control mastitis. Milking employees and equipment stay cleaner. Udder prep is more effective, milking time shorter.

Prevention is less costly than treatment!
