*Special Rate of 6.89% per annum is a fixed rate available on new loan through May 31, 2007. The Effective Interest Rate (EIR) is affected by fees and required investments. GreenStone FCSI, a new 1-year fixed rate term loan for \$100,000 with stated rate of 6.89%, maximum stock purchase of \$1,000, origination fee of \$500, and monthly payments would have an EIR of 7.29%. For a borrower who already owns the required amount of FCSI stock, the EIR would be 7.00%. This rate is available only on commercial term loans to our most creditworthy customers. Other fixed rate term loans are available. Some restrictions may apply, and rates are subject to change.
