Cancer concerns don't stop at the doctor's door. Neither should your insurance.

In 2004, the overall estimated costs of cancer were nearly \$190 billion. Of that total, about two-thirds were nonmedical expenses—items not usually covered by major medical policies.*

Conseco Health Insurance Company offers one solution:

Conseco Solutions® Cancer

You get supplemental coverage for cancer-related costs—and the support of a health advocate! Upon diagnosis, a team of medical professionals will help find physicians, community resources and answers about claims and billing.

The wellness benefit helps cover the costs of cancer screening tests. And the Alternative Care rider provides coverage if you pursue a more natural approach to treatment. Plus, you have the potential for premium return!

Benefits. Options. Advocacy. The advantage of Conseco Solutions.
